**Summary** — With 6 years of technical experience, I am an analytical and skilled Node JS developer proficient in Typescript, Golang, integrating/developing API's. My greatest achievement includes developing no code platform for our inner integration with other teams, which decreased the time of deploying task from 10-14 days to 2-4 days

## Skills

**Languages** Javascript, Golang, Python, Rust

**Database** Mongo, PostgreSQL, MySQL, CouchDB

**Testing** Jest, ava, cypress

**Other** Camunda BPMN, redis, kafka, rabbit, vuejs, svelte, graphql, docker, grafana, prometheus, kibana, k8s, clickhouse, jenkins

## Experience

### Wazzup

Dec 2022 – Jun 2024

*Senior FullStack Developer*

- Built and maintained 4 microservices with 99% uptime
- Authored technical documentation
- Designing chatbot constructor
- Collaborated in the developing drag n drop frontend
- Constructed backend of chatbot constructor
- Optimization of frontend and backend, using cache technologies, bull mqz

### Strana Development

Aug 2021 – Dec 2022

*Senior FullStack Developer*

- Creating microservice app from scratch
- Participate in full lifetime of app from architecture to deployment and testing system
- Optimized web application for maximum speed and scalability, resulting in a 30% decrease in page load time
- Supporting legacy code

### BI Group

Jan 2018 – Jun 2021

*Senior FullStack Developer*

#### Junior

- Writing unit, e2e tests on backend using ava and jest
- Writing frontend tests on jest and cypress
- Automation of post test reports and their sending into telegram
- Supporting legacy code
- Working on frontend using vue

#### Middle

- Deploy Keycloak for auth system
- Refactoring legacy parts of code base
- Making new services from scratch on python, go, js
- Was in charge of ios/android apps - bug fixes, new features, deployment to store
- Maintaining multiple work repositories and making reviews on new PR's

#### Senior

- Suggestion and implementation of GraphQL to our ecosystem
- Rewrote app from monolith architecture to microservices
- Making interviews for new candidates
- Solely maintained product that was used by 75% of personal across company

## Education

**S. Seifullin Kazakh Agrotechnical Research University (KATRU)**

*Bachelor of Science in Computer Science*

**Alem school of programming**

*certificate*
